3 actions. Firmness & Comfort

POST-SURGICAL CARE

These garments favor a better blood circulation, reduce swelling, help to compress the abdominal & affected areas and provide support. They are recommended in the post-surgical stage and also in the post-partum stage.

CARE

IMMEDIATE EFFECTS & COMFORT

Reduces the waistline, sculpts your figure and fits your curves while providing comfort.

SHAPE

LONG-TERM SHAPING & SUPPORT

The external cover and the design presses the body where it needs it most and the inner layer helps to tighten the skin, redistributes your weight and promotes a slimming effect.
